Modulbox – Offered as a 30 day rental: The Modulbox is a fully mobile booth, engineered in Germany, for outdoor use and deployed on a standard trailer, and can be pulled by a standard size, full pick up truck. It is an 8'x8'x8' box that opens up in the blink of an eye and becomes up to 256 sq ft of open pavilion with brand-able walls and roof. The Modulbox is easy to handle: the unit lifts and lowers itself off the trailer making the set up simple with electrical power or an optional, supplied generator. Within minutes of arrival, the Modulbox can be placed on the ground, requiring only one individual to open the roof, floor and walls by hand.

INCLUDED: Standard Modulbox Unit | Trailer | Generator | Counter | Road Cover | Two Hour Training | Quick Set-up Guide | Module Service Kit | Road Service Kit

EXTRAS: Full Vinyl Graphics | Mesh vinyl canopy graphics | Monitor | Corner Canopies

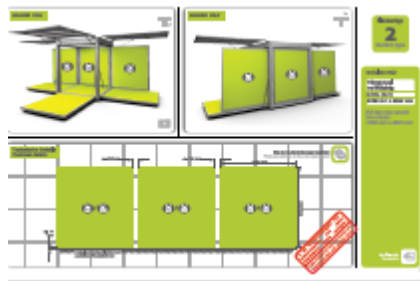

Modulbox MAX – Offered as a 30-day rental: The Modulbox MAX is the “big brother” of Modulbox offering the same outdoor use, mobility, ease of deployment, and transportation method as the smaller Modulbox. It is an 8'x15'x8' Cubical Rectangular exhibition trailer that opens up in the blink of an eye and can become up to 488 sf ft of open pavilion and brand-able walls and roof. The Modulbox Max is large enough to house an entire automobile under the roof making it unique to other products in its category.

INCLUDED: Standard Modulbox Unit | Trailer | Generator | Counter | Road Cover | Two hour training | Quick Set-up Guide | Modulbox Service Kit | Road Service Kit

EXTRAS: Full Vinyl Graphics

BRANDING

Xibeo offers vinyl graphics for the walls, canopies, and other brand-able surfaces. Prices are based on the material type and square footage required and are available as purchase only. Full graphic templates are available. Graphic files created by the client can be printed and applied at Xibeo.

TRANSPORTATION & LOGISTICS

All Modulebox systems should only be operated by trained personnel. Each client will go through a two hour training process at Xibeo (or client's location for an additional cost depending on location).

The Modulebox and Modulbox Max both have specific requirements for the vehicle towing the unit and the class hitch specifications
